William H. Harrison is said to have the preference for Postmaster at Flemingsburg.

Rev. C. G. Jordan was installed as Pastor of the Presbyterian Church at Ironton, Rev. S. B. Alderson of Portsmouth preaching the installation sermon.

Judge M. C. Hutchins of this city was in attendance on the annual meeting of the Loyal Legion at Cincinnati.

Mr. John Wheeler, the Market street confectioner, has the Editor's thanks for the fine fish received this morning.

Mr. and Mrs. T. Arnold of Mt. Carmel have moved to this city and have taken up their residence on Forest avenue.

Taylor Bros. at Washington are still selling 25 cents standard granulated sugar for 81, and 5 pounds Arbuckle's Coffee for 81.

Dr. A. D. James, heretofore unknown as a factor, says he will risk his life on a bet that he is the next United States Marshal for Kentucky.

Dr. John Huddleston of Murphysville has been at the bedside of his brother, Dr. Taylor Huddleston, who is very ill at his home near Carlisle.

A. C. Dickey of Fleming county, a student of the Kentucky Wesleyan College, Winchester, passed an examination Monday at Millersburg for admission to the District Conference, which body will give him license to preach.

JUDGE O. S. DEMING.

He's in Washington City and Will Probably Get an Appointment.

A special from Washington City says Judge Deming of Mt. Olivet is there.

The Judge is an old soldier and had just returned from New York, where he had been attending the Grant memorial ceremonies.

He wants a Consulship, but has not yet applied for any particular one.

President McKinley has a strong leaning toward old soldiers, and Judge Deming is almost assured of a position.

WEEKLY CROP REPORT!

PROSPECTS THROUGHOUT THE STATE OF KENTUCKY.

GENERAL REVIEW.

The week opened with the favorable conditions of clear weather and high temperature. These continued to and including April 29th, though on the latter date light scattered showers fell in various parts of the state. From April 30th to date of report, cool, cloudy and showery weather has prevailed in all parts of the state. The amount of rainfall, while in excess of the normal generally, was greatest in the Central counties and least in the Southern and Western. The temperature exceeded the normal on April 28th and 29th, but there was a deficiency during the remaining days of the week, which ranged from 15° to 20° during May 1st and 2d.

The general tone of correspondents' reports is encouraging, despite the somewhat unfavorable weather conditions of the week as a whole, and all forms of vegetation have made fair progress. The season is still some weeks backward, but as yet no injurious influences of consequence are reported. A period of warm, sunny weather will greatly aid in bringing crops up to their normal condition for the season. Snow fell quite generally in the Northern and Eastern parts of the state during Sunday.

WESTERN SECTION.

The condition of crops in this section is slightly in advance of that in other portions of the state, the more favorable weather hastening their growth and enabling farmers to push their work to quite a considerable extent in most localities. The general condition of wheat is fair, especially that portion of the crop which was sown on the uplands. The heavy rains have had the effect of yellowing the crop on the bottoms, but not to such an extent as to seriously injure it. It is about ready to head in several of the extreme Western counties. Corn planting was checked by the rain, and only about one-half of the work is done. The bottom lands are still wet to break in most localities. The seeding of oats was completed, and they are beginning to come up. Farmers generally report unfavorably as to the outlook for them. Meadows and pastures look well. Tobacco plants appear to have improved during the week, though conflicting reports regarding them are still received. In Caldwell county they are nearly large enough to set. The outlook for fruits is generally good, though there is considerable complaint from counties bordering on the Ohio that early peaches are falling from the trees. The apple bloom is very abundant.

CENTRAL SECTION.

Farm work made excellent progress during the first part of the week, and much was accomplished in the way of setting the effect of earlier unfavorable conditions. The rains of the last days of the week caused the suspension of all farm work, however. Though the season is still very backward, the general condition of all crops, except oats, is very favorable. Considerable progress was made in corn planting, though the work is far from completion. Much complaint is made that the soil is breaking down, requiring great labor to put in condition to plant. Wheat continues in the most favorable condition, there being fewer complaints of yellowing this week than last. Gardening is about completed. Tobacco plants have grown but little during the week, but there appears to be a good prospect for a plentiful supply when needed for setting. Pastureage is good and meadows have continued to improve. Clover is reported to be a failure in many parts of Shelby and adjoining counties. While many complaints are made of the dropping of peaches and cherries from the trees, the general condition of fruit, especially of apples, is very good. The correspondent in Washington county reports considerable damage from chinch bugs. Canker worms are injuring apple trees in Hardin county.

EASTERN SECTION.

The week closed with the season about two weeks backward, though vegetation of all kinds showed material advancement and farmers made great progress with their work. Much corn land was broken and a considerable quantity had been planted when the rain stopped the work.

Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

BALLENGER, Jeweler.

South Side Second Street.

Only are reported to be coming up nicely in most localities. The condition of wheat continues to be most favorable, many correspondents stating that it is the best in years. Pastures and meadows are generally excellent. Tobacco plants will doubtless be plentiful, despite the complaint of shortage made in some localities. All the earlier garden crops have been planted. The outlook for fruit, especially apples, is very good. Fine prospects for oak and hick nut are reported.

The court ordered the sale of the plant of the Common Sense Engine Company, worth \$100,000, at Muncie, Ind.

SUNDAY-SCHOOL CONVENTION.

To Be Held in This City Wednesday, June 16th, at M. E. Church, South.

At the last annual County Convention of the Mason County Branch of the Kentucky Sunday School Union, which was held at Hebron Church, the following officers were chosen:

President—John Duley.

Vice-President—James A. Ashury.

Secretary—E. Swift.

Treasurer—J. James Wood.

Messrs. W. T. Berry and J. James Wood were selected to determine the time and place of holding the next County Convention. They have selected Wednesday, June 16th, 1897, at the M. E. Church, South, Maysville, as the place.

Let every church in the county send delegates to represent them in this important work. Let collections be taken and reports of the collection of all schools be made and sent to me before that time. Blanks have been sent for this purpose.

Each school in the county, without regard to denomination, should be represented in this Convention.

Entertainment will be furnished the visiting delegates.

JOHN DULEY, President.

E. Swift, Secretary.
